

Catapult PGH: How to Get Your Keys

Catapult is a community first and a space second. We all rely on each other to take care of the space. **There's no lock that can protect a space from people with keys.** Instead of seeing this as an obstacle, we see it as an opportunity. In order for new members to get keys, *new* members need to get signatures from 4 current members. This gives members a chance to meet "The New Kid" and also show new members all the quirks of the space.
